

# ELL-1

ELL-1 is a guide luminaire with a viewing distance of 20 metres. The plastic-body luminaire uses an LED light source. It is available in one and two-sided models. Guide luminaire features a downlight for additional illumination under the sign. Light fitting can be wall or ceiling mounted. ELL-1 is IP44 rated.

Typical applications include schools, day-care centres, shared facilities in buildings, car parks and various office premises.
